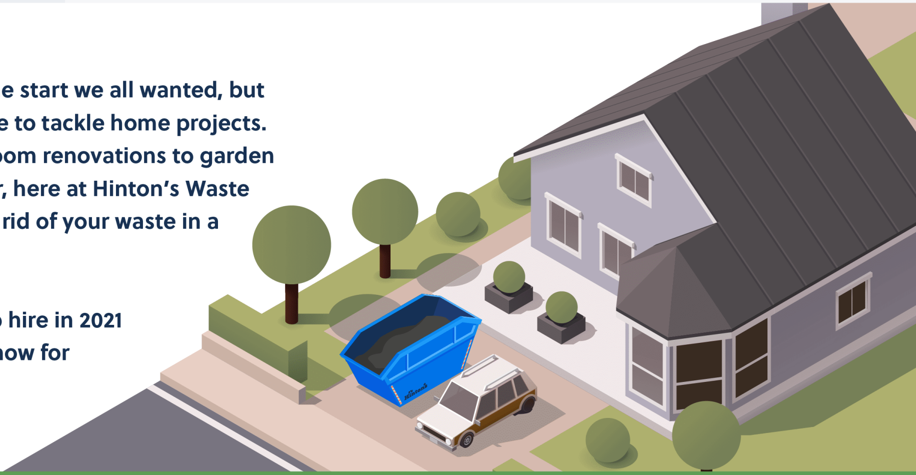
2021 Skip Hire Guide

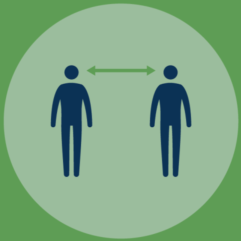
2021 may not be off to the start we all wanted, but it means there's still time to tackle home projects. From kitchen and bathroom renovations to garden sprucing for the summer, here at Hinton's Waste we want to help you get rid of your waste in a quick, responsible way.

Here's our guide for skip hire in 2021 and what you need to know for your project.



COVID-Secure Skip Hire in 2021

Working to keep you and our staff safe, we've implemented a number of things to help provide COVID-secure skip hire for Croydon and the surrounding region:



Social distancing

Regular hand washing

Face masks

Changes to site protocols

Skip Hire Myths

There are plenty of misconceptions out there when it comes to skips, don't let them hold you back — here's the reality of skip hire:

Myth: You always need a skip permit

False. You only need a permit if the skip is placed on the road or public highway.

Alternative! If you can't have a skip in the road, why not try our wait and load skip hire?

Myth: You can't put recycling in a skip

False. We collect your waste and recycle as much of it as possible at our facility.

Did you know? We have our own waste transfer and recycling centre!

Myth: Skip hire is expensive

False. Multiple trips in your car could be just as expensive after fuel, time and damage to the vehicle are factored in.

Did you know? Skip hire from Hinton's Waste is competitively priced.

Myth: Skips can take days to be delivered

False. At Hinton's Waste, we provide same-day delivery for orders before 12pm or next-day delivery. How about that for quick service?

Alternative! If you need time to prepare, you can always book well in advance to reserve a skip.

Things to Consider

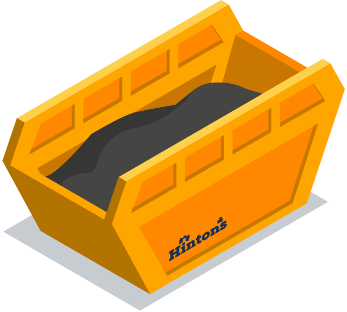
Skip permits

Having a skip on your garden or drive will mean you avoid needing a skip permit, but if you do need one, simply let us know and we can advise you. It's an every-day part of skip hire.

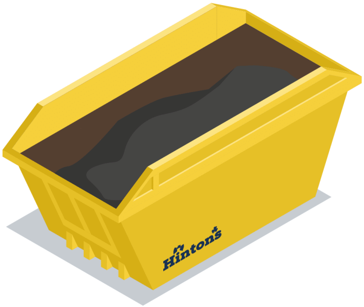
Skip Sizes

Plan ahead to get the right skip sizes and save yourself wasting money on something too big or too small for your needs. We provide:

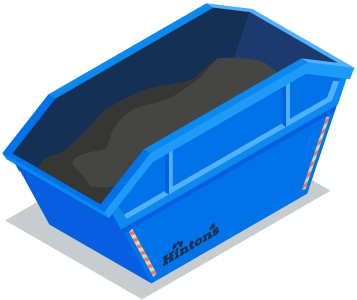
6 Yard Skips



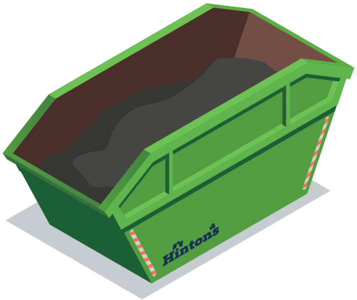
8 Yard Skips



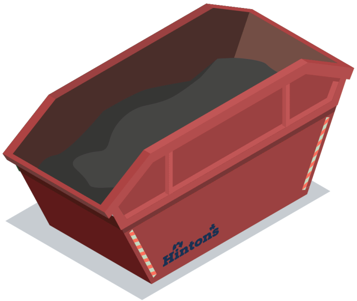
10 Yard Skips



12 Yard Skips



14 Yard Skips



16 Yard Skips
